Before You Begin

SAQ A has been developed to address requirements applicable to merchants whose cardholder data functions are completely outsourced to validated third parties, where the merchant retains only paper reports or receipts with cardholder data.

SAQ A merchants may be either e-commerce or mail/telephone-order merchants (card-not-present), and do not store, process, or transmit any cardholder data in electronic format on their systems or premises.

SAQ A merchants confirm that, for this payment channel:

- Your company accepts only card-not-present (e-commerce or mail/telephone-order) transactions;
- All processing of cardholder data is entirely outsourced to PCI DSS validated third-party service providers;
- Your company does not electronically store, process, or transmit any cardholder data on your systems or premises, but relies entirely on a third party(s) to handle all these functions;
- Your company has confirmed that all third party(s) handling storage, processing, and/or transmission of cardholder data are PCI DSS compliant; and
- Any cardholder data your company retains is on paper (for example, printed reports or receipts), and these documents are not received electronically.

Additionally, for e-commerce channels:

- All elements of the payment page(s) delivered to the consumer’s browser originate only and directly from a PCI DSS validated third-party service provider(s).

This SAQ is not applicable to face-to-face channels.

This shortened version of the SAQ includes questions that apply to a specific type of small merchant environment, as defined in the above eligibility criteria. If there are PCI DSS requirements applicable to your environment that are not covered in this SAQ, it may be an indication that this SAQ is not suitable for your environment. Additionally, you must still comply with all applicable PCI DSS requirements in order to be PCI DSS compliant.

Note: For this SAQ, PCI DSS Requirements that address the protection of computer systems (for example, Requirements 2, 6, and 8) apply to e-commerce merchants that redirect customers from their website to a third party for payment processing, and specifically to the merchant web server upon which the redirection mechanism is located. Mail order/telephone order (MOTO) or e-commerce merchants that have completely outsourced all operations (where there is no redirection mechanism from the merchant to the third party) and therefore do not have any systems in scope for this SAQ, would consider these requirements to be “not applicable.” Refer to guidance on the following pages for how to report requirements that are not applicable.
PCI DSS Self-Assessment Completion Steps

1. Identify the applicable SAQ for your environment—refer to the *Self-Assessment Questionnaire Instructions and Guidelines* document on PCI SSC website for information.

2. Confirm that your environment is properly scoped and meets the eligibility criteria for the SAQ you are using (as defined in Part 2g of the Attestation of Compliance).

3. Assess your environment for compliance with applicable PCI DSS requirements.

4. Complete all sections of this document:
   - Section 1 (Parts 1 & 2 of the AOC) – Assessment Information and Executive Summary
   - Section 2 – PCI DSS Self-Assessment Questionnaire (SAQ A)
   - Section 3 (Parts 3 & 4 of the AOC) – Validation and Attestation Details and Action Plan for Non-Compliant Requirements (if applicable)

5. Submit the SAQ and Attestation of Compliance (AOC), along with any other requested documentation—such as ASV scan reports—to your acquirer, payment brand or other requester.

Understanding the Self-Assessment Questionnaire

The questions contained in the “PCI DSS Question” column in this self-assessment questionnaire are based on the requirements in the PCI DSS.

Additional resources that provide guidance on PCI DSS requirements and how to complete the self-assessment questionnaire have been provided to assist with the assessment process. An overview of some of these resources is provided below:

<table>
<thead>
<tr>
<th>Document</th>
<th>Includes:</th>
</tr>
</thead>
</table>
| PCI DSS *(PCI Data Security Standard Requirements and Security Assessment Procedures)* | • Guidance on Scoping  
• Guidance on the intent of all PCI DSS Requirements  
• Details of testing procedures  
• Guidance on Compensating Controls |
| SAQ Instructions and Guidelines documents | • Information about all SAQs and their eligibility criteria  
• How to determine which SAQ is right for your organization |
| *PCI DSS and PA-DSS Glossary of Terms, Abbreviations, and Acronyms* | • Descriptions and definitions of terms used in the PCI DSS and self-assessment questionnaires |

These and other resources can be found on the PCI SSC website (www.pcisecuritystandards.org). Organizations are encouraged to review the PCI DSS and other supporting documents before beginning an assessment.

*Expected Testing*

The instructions provided in the “Expected Testing” column are based on the testing procedures in the PCI DSS, and provide a high-level description of the types of testing activities that should be performed in order to verify that a requirement has been met. Full details of testing procedures for each requirement can be found in the PCI DSS.
Completing the Self-Assessment Questionnaire

For each question, there is a choice of responses to indicate your company’s status regarding that requirement. **Only one response should be selected for each question.**

A description of the meaning for each response is provided in the table below:

<table>
<thead>
<tr>
<th>Response</th>
<th>When to use this response:</th>
</tr>
</thead>
<tbody>
<tr>
<td>Yes</td>
<td>The expected testing has been performed, and all elements of the requirement have been met as stated.</td>
</tr>
<tr>
<td>Yes with CCW</td>
<td>The expected testing has been performed, and the requirement has been met with the assistance of a compensating control.</td>
</tr>
<tr>
<td>(Compensating</td>
<td>All responses in this column require completion of a Compensating Control Worksheet (CCW) in Appendix B of the SAQ.</td>
</tr>
<tr>
<td>Control Worksheet)</td>
<td>Information on the use of compensating controls and guidance on how to complete the worksheet is provided in the PCI DSS.</td>
</tr>
<tr>
<td>No</td>
<td>Some or all elements of the requirement have not been met, or are in the process of being implemented, or require further testing before it will be known if they are in place.</td>
</tr>
<tr>
<td>N/A</td>
<td>The requirement does not apply to the organization’s environment. (See Guidance for Non-Applicability of Certain, Specific Requirements below for examples.)</td>
</tr>
<tr>
<td>(Not Applicable)</td>
<td>All responses in this column require a supporting explanation in Appendix C of the SAQ.</td>
</tr>
</tbody>
</table>

**Guidance for Non-Applicability of Certain, Specific Requirements**

If any requirements are deemed not applicable to your environment, select the “N/A” option for that specific requirement, and complete the “Explanation of Non-Applicability” worksheet in Appendix C for each “N/A” entry.

**Legal Exception**

If your organization is subject to a legal restriction that prevents the organization from meeting a PCI DSS requirement, check the “No” column for that requirement and complete the relevant attestation in Part 3.
Section 1: Assessment Information

Instructions for Submission

This document must be completed as a declaration of the results of the merchant’s self-assessment with the Payment Card Industry Data Security Standard Requirements and Security Assessment Procedures (PCI DSS). Complete all sections: The merchant is responsible for ensuring that each section is completed by the relevant parties, as applicable. Contact acquirer (merchant bank) or the payment brands to determine reporting and submission procedures.

Part 1. Merchant and Qualified Security Assessor Information

Part 1a. Merchant Organization Information

Company Name: Atlassian Corporation PLC  
DBA (doing business as): Atlassian (specifically, the Jira, Confluence, Bitbucket and Learndot products)

Contact Name: Guy Herbert  
Title: Head of IT Risk and Compliance

Telephone:  
E-mail: gherbert@atlassian.com

Business Address: 350 Bush St  
City: San Francisco

State/Province: CA  
Country: USA  
Zip: 94104

URL:  
https://www.atlassian.com/software/jira  
https://www.atlassian.com/software/confluence  
https://www.atlassian.com/software/bitbucket  
https://www.atlassian.com/software/learndot

Part 1b. Qualified Security Assessor Company Information (if applicable)

Company Name: Optus Cyber Security Pty Limited

Lead QSA Contact Name: Craig Searle  
Title: Director, Cyber Security Consulting

Telephone: +61 1300733940  
E-mail: craig.searle@trustwave.com

Business Address: Level 1, 195 Little Collins St  
City: Melbourne

State/Province: VIC  
Country: Australia  
Zip: 3000

URL: www.trustwave.com

Part 2. Executive Summary

Part 2a. Type of Merchant Business (check all that apply)

- [ ] Retailer  
- [ ] Telecommunication  
- [ ] Grocery and Supermarkets  
- [ ] Petroleum  
- [X] E-Commerce  
- [ ] Mail order/telephone order (MOTO)

Others (please specify):

What types of payment channels does your business serve?  
- [ ] Mail order/telephone order (MOTO)  
- [X] E-Commerce

Which payment channels are covered by this SAQ?

- [ ] Mail order/telephone order (MOTO)  
- [X] E-Commerce
Part 2. Executive Summary (continued)

Part 2b. Description of Payment Card Business

How and in what capacity does your business store, process and/or transmit cardholder data?

The Atlassian accepts credit card payments via a third party provider - Mastercard Payment Gateway Service (MPGS). Payments are submitted via an SAQ A-compliant iFrame. No credit card details are stored, processed or transmitted by Atlassian.

Part 2c. Locations

List types of facilities (for example, retail outlets, corporate offices, data centers, call centers, etc.) and a summary of locations included in the PCI DSS review.

<table>
<thead>
<tr>
<th>Type of facility</th>
<th>Number of facilities of this type</th>
<th>Location(s) of facility (city, country)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Example: Retail outlets</td>
<td>3</td>
<td>Boston, MA, USA</td>
</tr>
<tr>
<td>Atlassian Jira, Confluence, Bitbucket and Learndot online payment portals</td>
<td>1</td>
<td>N/A - eCommerce only</td>
</tr>
</tbody>
</table>

Part 2d. Payment Application

Does the organization use one or more Payment Applications? □ Yes □ No

Provide the following information regarding the Payment Applications your organization uses:

<table>
<thead>
<tr>
<th>Payment Application Name</th>
<th>Version Number</th>
<th>Application Vendor</th>
<th>Is application PA-DSS Listed?</th>
<th>PA-DSS Listing Expiry date (if applicable)</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
<td></td>
<td>Yes</td>
<td>No</td>
</tr>
<tr>
<td></td>
<td></td>
<td></td>
<td>Yes</td>
<td>No</td>
</tr>
<tr>
<td></td>
<td></td>
<td></td>
<td>Yes</td>
<td>No</td>
</tr>
<tr>
<td></td>
<td></td>
<td></td>
<td>Yes</td>
<td>No</td>
</tr>
<tr>
<td></td>
<td></td>
<td></td>
<td>Yes</td>
<td>No</td>
</tr>
</tbody>
</table>

Part 2e. Description of Environment

Provide a high-level description of the environment covered by this assessment.

For example:
• Connections into and out of the cardholder data environment (CDE).

Atlassian online customer store, including in-application purchases for Jira, Confluence, Bitbucket and Learndot. All credit card payments are processed by a third-party provider,
Critical system components within the CDE, such as POS devices, databases, web servers, etc., and any other necessary payment components, as applicable. MPGS, via a SAQ A-compliant iFrame embedded within the online customer store. No credit card data is stored, processed or transmitted by Atlassian. All payment pages delivered to the customer’s browser originate directly from MPGS.

Does your business use network segmentation to affect the scope of your PCI DSS environment? (Refer to “Network Segmentation” section of PCI DSS for guidance on network segmentation.)

<table>
<thead>
<tr>
<th>Yes</th>
<th>No</th>
</tr>
</thead>
<tbody>
<tr>
<td>☑</td>
<td></td>
</tr>
</tbody>
</table>

Part 2. Executive Summary (continued)

Part 2f. Third-Party Service Providers

Does your company use a Qualified Integrator & Reseller (QIR)?

<table>
<thead>
<tr>
<th>Yes</th>
<th>No</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>☑</td>
</tr>
</tbody>
</table>

If Yes:

Name of QIR Company:

QIR Individual Name:

Description of services provided by QIR:

Does your company share cardholder data with any third-party service providers (for example, Qualified Integrator & Resellers (QIR), gateways, payment processors, payment service providers (PSP), web-hosting companies, airline booking agents, loyalty program agents, etc.)?

<table>
<thead>
<tr>
<th>Yes</th>
<th>No</th>
</tr>
</thead>
<tbody>
<tr>
<td>☑</td>
<td></td>
</tr>
</tbody>
</table>

If Yes:

Name of service provider: Mastercard Payment Gateway Services.

Description of services provided: Credit card processing via an iFrame embedded in the product's eCommerce site.

Note: Requirement 12.8 applies to all entities in this list.

Part 2g. Eligibility to Complete SAQ A

Merchant certifies eligibility to complete this shortened version of the Self-Assessment Questionnaire because, for this payment channel:

- Merchant accepts only card-not-present (e-commerce or mail/telephone-order) transactions;
- All processing of cardholder data is entirely outsourced to PCI DSS validated third-party service providers;
- Merchant does not electronically store, process, or transmit any cardholder data on merchant systems or premises, but relies entirely on a third party(s) to handle all these functions;

- Merchant has confirmed that all third party(s) handling storage, processing, and/or transmission of cardholder data are PCI DSS compliant; and

- Any cardholder data the merchant retains is on paper (for example, printed reports or receipts), and these documents are not received electronically.

- Additionally, for e-commerce channels:
  All elements of the payment page(s) delivered to the consumer’s browser originate only and directly from a PCI DSS validated third-party service provider(s).
### Build and Maintain a Secure Network and Systems

**Requirement 2: Do not use vendor-supplied defaults for system passwords and other security parameters**

<table>
<thead>
<tr>
<th>PCI DSS Question</th>
<th>Expected Testing</th>
<th>Response (Check one response for each question)</th>
</tr>
</thead>
</table>
| 2.1 (a) Are vendor-supplied defaults always changed before installing a system on the network? | ▪ Review policies and procedures.  
▪ Examine vendor documentation.  
▪ Observe system configurations and account settings.  
▪ Interview personnel. | Yes | Yes with CCW | No | N/A |
| 2.1 (b) Are unnecessary default accounts removed or disabled before installing a system on the network? | ▪ Review policies and procedures.  
▪ Review vendor documentation.  
▪ Examine system configurations and account settings.  
▪ Interview personnel. | Yes | Yes | No | N/A |
Maintain a Vulnerability Management Program

**Requirement 6: Develop and maintain secure systems and applications**

<table>
<thead>
<tr>
<th>PCI DSS Question</th>
<th>Expected Testing</th>
<th>Response</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>6.2</strong> (a) Are all system components and software protected from known vulnerabilities by installing applicable vendor-supplied security patches?</td>
<td>Review policies and procedures.</td>
<td>☒</td>
</tr>
<tr>
<td>(b) Are critical security patches installed within one month of release?</td>
<td>Review policies and procedures. Examine system components. Compare list of security patches installed to recent vendor patch lists.</td>
<td>☒</td>
</tr>
</tbody>
</table>

DocuSign Envelope ID: 5054DDD7-2C96-44A7-84D6-80A28DBC5B9D
# Implement Strong Access Control Measures

**Requirement 8: Identify and authenticate access to system components**

<table>
<thead>
<tr>
<th>PCI DSS Question</th>
<th>Expected Testing</th>
<th>Response (Check one response for each question)</th>
</tr>
</thead>
</table>
| **8.1.1** Are all users assigned a unique ID before allowing them to access system components or cardholder data? | ▪ Review password procedures.  
▪ Interview personnel. | ☒ ☐ ☐ ☐ |
| **8.1.3** Is access for any terminated users immediately deactivated or removed?  | ▪ Review password procedures.  
▪ Examine terminated users accounts.  
▪ Review current access lists.  
▪ Observe returned physical authentication devices. | ☒ ☐ ☐ ☐ |
| **8.2** In addition to assigning a unique ID, is one or more of the following methods employed to authenticate all users? | ▪ Review password procedures.  
▪ Observe authentication processes. | ☒ ☐ ☐ ☐ |
| ▪ Something you know, such as a password or passphrase  
▪ Something you have, such as a token device or smart card  
▪ Something you are, such as a biometric | | |
| **8.2.3 (a)** Are user password parameters configured to require passwords/passphrases meet the following? | ▪ Examine system configuration settings to verify password parameters. | ☒ ☐ ☐ ☐ |
| ▪ A minimum password length of at least seven characters  
▪ Contain both numeric and alphabetic characters | | |
<p>| Alternatively, the passwords/passphrases must have complexity and strength at least equivalent to the parameters specified above. | | |</p>
<table>
<thead>
<tr>
<th>PCI DSS Question</th>
<th>Expected Testing</th>
</tr>
</thead>
</table>
| 8.5 Are group, shared, or generic accounts, passwords, or other authentication methods prohibited as follows:  
   - Generic user IDs and accounts are disabled or removed;  
   - Shared user IDs for system administration activities and other critical functions do not exist; and  
   - Shared and generic user IDs are not used to administer any system components? |  
   - Review policies and procedures.  
   - Examine user ID lists.  
   - Interview personnel. |

**Requirement 9: Restrict physical access to cardholder data**

<table>
<thead>
<tr>
<th>PCI DSS Question</th>
<th>Expected Testing</th>
</tr>
</thead>
<tbody>
<tr>
<td>9.5 Are all media physically secured (including but not limited to computers, removable electronic media, paper receipts, paper reports, and faxes)? For purposes of Requirement 9, “media” refers to all paper and electronic media containing cardholder data.</td>
<td></td>
</tr>
</tbody>
</table>
   - Review policies and procedures for physically securing media.  
   - Interview personnel. |
| 9.6 (a) Is strict control maintained over the internal or external distribution of any kind of media? |  
   - Review policies and procedures for distribution of media. |
| 9.6.1 Is media classified so the sensitivity of the data can be determined? |  
   - Review policies and procedures for media classification.  
   - Interview security personnel. |
<table>
<thead>
<tr>
<th>PCI DSS Question</th>
<th>Expected Testing</th>
<th>Response (Check one response for each question)</th>
</tr>
</thead>
<tbody>
<tr>
<td>9.6.2 Is media sent by secured courier or other delivery method that can be</td>
<td>• Interview personnel.</td>
<td>☐</td>
</tr>
<tr>
<td>accurately tracked?</td>
<td>• Examine media distribution tracking logs and</td>
<td>☐</td>
</tr>
<tr>
<td></td>
<td>documentation.</td>
<td>☐</td>
</tr>
<tr>
<td>9.6.3 Is management approval obtained prior to moving the media (especially</td>
<td>• Interview personnel.</td>

• Review policies and procedures and supporting documentation. | ☒ | ☐ | ☐ | ☐ |
| 12.10.1 (a) Has an incident response plan been created to be implemented in the event of system breach? | • Review the incident response plan.  
• Review incident response plan procedures. | ☒ | ☐ | ☐ | ☐ |
Appendix A: Additional PCI DSS Requirements

Appendix A1: Additional PCI DSS Requirements for Shared Hosting Providers
This appendix is not used for merchant assessments.

Appendix A2: Additional PCI DSS Requirements for Entities using SSL/early TLS for Card-Present POS POI Terminal Connections
This appendix is not used for SAQ A merchant assessments.

Appendix A3: Designated Entities Supplemental Validation (DESV)
This Appendix applies only to entities designated by a payment brand(s) or acquirer as requiring additional validation of existing PCI DSS requirements. Entities required to validate to this Appendix should use the DESV Supplemental Reporting Template and Supplemental Attestation of Compliance for reporting, and consult with the applicable payment brand and/or acquirer for submission procedures.
Appendix B: Compensating Controls Worksheet

Use this worksheet to define compensating controls for any requirement where “YES with CCW” was checked.

**Note:** Only companies that have undertaken a risk analysis and have legitimate technological or documented business constraints can consider the use of compensating controls to achieve compliance. Refer to Appendices B, C, and D of PCI DSS for information about compensating controls and guidance on how to complete this worksheet.

Requirement Number and Definition:

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Information Required</th>
<th>Explanation</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Constraints</td>
<td>List constraints precluding compliance with the original requirement.</td>
<td></td>
</tr>
<tr>
<td>2. Objective</td>
<td>Define the objective of the original control; identify the objective met by the compensating control.</td>
<td></td>
</tr>
<tr>
<td>3. Identified Risk</td>
<td>Identify any additional risk posed by the lack of the original control.</td>
<td></td>
</tr>
<tr>
<td>4. Definition of Compensating Controls</td>
<td>Define the compensating controls and explain how they address the objectives of the original control and the increased risk, if any.</td>
<td></td>
</tr>
<tr>
<td>5. Validation of Compensating Controls</td>
<td>Define how the compensating controls were validated and tested.</td>
<td></td>
</tr>
<tr>
<td>6. Maintenance</td>
<td>Define process and controls in place to maintain compensating controls.</td>
<td></td>
</tr>
</tbody>
</table>
Appendix C: Explanation of Non-Applicability

If the “N/A” (Not Applicable) column was checked in the questionnaire, use this worksheet to explain why the related requirement is not applicable to your organization.

<table>
<thead>
<tr>

<td>9.5, 9.6, 9.6.1 - 9.6.3, 9.7, 9.8, 9.81</td>
<td>Cardholder data is not stored within the Atlassian environment.</td>
</tr>
</tbody>
</table>
Section 3: Validation and Attestation Details

Part 3. PCI DSS Validation

This AOC is based on results noted in SAQ A (Section 2), dated 25/09/2020.

Based on the results documented in the SAQ A noted above, the signatories identified in Parts 3b-3d, as applicable, assert(s) the following compliance status for the entity identified in Part 2 of this document: (check one):

- **Compliant**: All sections of the PCI DSS SAQ are complete, all questions answered affirmatively, resulting in an overall **COMPLIANT** rating; thereby Atlassian Corporation PLC has demonstrated full compliance with the PCI DSS.

- **Non-Compliant**: Not all sections of the PCI DSS SAQ are complete, or not all questions are answered affirmatively, resulting in an overall **NON-COMPLIANT** rating, thereby (Merchant Company Name) has not demonstrated full compliance with the PCI DSS.

**Target Date** for Compliance:

An entity submitting this form with a status of Non-Compliant may be required to complete the Action Plan in Part 4 of this document. Check with your acquirer or the payment brand(s) before completing Part 4.

- **Compliant but with Legal exception**: One or more requirements are marked “No” due to a legal restriction that prevents the requirement from being met. This option requires additional review from acquirer or payment brand.

  *If checked, complete the following:*

<table>
<thead>
<tr>
<th>Affected Requirement</th>
<th>Details of how legal constraint prevents requirement being met</th>

Part 3a. Acknowledgement of Status

**Signatory(s) confirms:**

(Check all that apply)

- **✓** PCI DSS Self-Assessment Questionnaire A, Version 3.2.1, was completed according to the instructions therein.

- **✓** All information within the above-referenced SAQ and in this attestation fairly represents the results of my assessment in all material respects.

- **✗** I have confirmed with my payment application vendor that my payment system does not store sensitive authentication data after authorization.

- **✓** I have read the PCI DSS and I recognize that I must maintain PCI DSS compliance, as applicable to my environment, at all times.

- **✓** If my environment changes, I recognize I must reassess my environment and implement any additional PCI DSS requirements that apply.
Part 3. PCI DSS Validation (continued)

Part 3a. Acknowledgement of Status (continued)

☑️ No evidence of full track data\(^1\), CAV2, CVC2, CID, or CVV2 data\(^2\), or PIN data\(^3\) storage after transaction authorization was found on ANY system reviewed during this assessment.

☐ ASV scans are being completed by the PCI SSC Approved Scanning Vendor N/A

Part 3b. Merchant Attestation

Signature of Merchant Executive Officer ↑ Date:

Merchant Executive Officer Name: Stan Shepard Title:

Part 3c. Qualified Security Assessor (QSA) Acknowledgement (if applicable)

If a QSA was involved or assisted with this assessment, describe the role performed:

Review PCI environment to ensure alignment with PCI DSS SAQ A requirements.

Signature of Duly Authorized Officer of QSA Company ↑ Date: 25/09/2020

Duly Authorized Officer Name: Craig Searle QSA Company: Optus Cyber Security Pty Limited

Part 3d. Internal Security Assessor (ISA) Involvement (if applicable)

If an ISA(s) was involved or assisted with this assessment, identify the ISA personnel and describe the role performed:

---

\(^1\) Data encoded in the magnetic stripe or equivalent data on a chip used for authorization during a card-present transaction. Entities may not retain full track data after transaction authorization. The only elements of track data that may be retained are primary account number (PAN), expiration date, and cardholder name.

\(^2\) The three- or four-digit value printed by the signature panel or on the face of a payment card used to verify card-not-present transactions.

\(^3\) Personal identification number entered by cardholder during a card-present transaction, and/or encrypted PIN block present within the transaction message.

Select the appropriate response for “Compliant to PCI DSS Requirements” for each requirement. If you answer “No” to any of the requirements, you may be required to provide the date your Company expects to be compliant with the requirement and a brief description of the actions being taken to meet the requirement.

*Check with your acquirer or the payment brand(s) before completing Part 4.*
