To Whom It May Concern,

Letter of Assessment

From 13th July 2020 to 25th September 2020, pursuant to our agreement with Atlassian Pty Ltd, elttam conducted a baseline security review to give feedback on the App Migration Framework alpha release which allows customers to migrate from server to Atlassian cloud in “one click”.

The engagement commenced with a kick-off meeting to confirm access and project scope and a walk through of the product. The assessment was performed by one consultant over the assessment period and followed a white-box methodology and used a mix of dynamic testing and static analysis. The engagement was wrapped up with a close-down meeting and write-up was issued to Atlassian via Confluence.

elttam is an independent security company providing research-driven security assessment services to the Fortune 500, global financial institutions, leading technology companies, Australian Federal Government and up and coming technology start-ups. We combine pragmatism and deep technical insight to help our customers secure their most important assets.

Sincerely,

Nina Rodgers
Operations Manager
