Launch your first portfolio and its additional programs

After a successful Jumpstart, you are ready to unleash the portfolio leadership team. Consult with an experienced Solution Architect to learn how to implement lean portfolio management using Jira Align to improve business agility. Introduce lean budgeting, intake with a portfolio kanban, and capacity planning to launch your first portfolio leadership team. The organization will use this portfolio as a showcase, and as a cornerstone for the expansion into other portfolios across the organization.

Outcomes

Your portfolio leadership team will see, in real-time, how the teams are working to support the strategic objectives of the enterprise, and how they are progressing against those objectives in terms of:

- Outcomes achieved
- Work completed
- Investment dollars spent

They will use this information to shape tradeoff decisions and influence priorities in the next planning cycle.

Results

What to expect from the Expand to Portfolio package:

1. The first portfolio leadership team is driving its operations and governance through Jira Align
2. The Jira Align admins are enabled to configure additional portfolios and programs (including the Jira Connector)
3. The organization has a plan for extending the deployment into other portfolios

Solution Architects

Ensure success in deploying Jira Align across the enterprise by enlisting a Solution Architect to model your organization, configure your full solution, and build an on-boarding plan for Jira Align.

Solution Architects are:

- Seasoned in Jira Align adoption and can share proven deployment patterns for the product
- Experienced in application best practices that can be shared via training
- Able to serve as an enterprise transformation advisor, and are skilled as enterprise change agents
- Certified in industry-leading scaled agile frameworks
- Ready to guide in the adoption of industry standards across the entire Atlassian ecosystem
The packaged Professional Services described herein are valid for twelve (12) months from the Order Effective Date specified in the applicable Order, after such period they shall expire with no further credit or refund, and shall have no value thereafter. These Professional Services shall be deemed completed with no further obligation by AgileCraft upon the earlier of: (i) the performance of the activities or outcomes described herein, or (ii) twelve (12) months from the Order Effective Date.

Jira Align Premier Support is not included in this Workshop, and instead is a standalone service that you may purchase separately to complement your Workshop.
