To Whom It May Concern,

Letter of Assessment

From 22nd June 2020 to 8th July 2020, pursuant to our agreement with Atlassian Pty Ltd, elttam conducted a white-box review of the GraphQL Gateway.

The engagement commenced with a kick-off meeting to confirm access and project scope including a walk-through of the product. The assessment was performed by two consultants over the assessment period following a white-box penetration testing methodology with tickets entered into Jira and an assessment summary written up in Confluence. The objective of the assessment was to conduct a secure design review of the GraphQL Gateway combined with testing/code review of key capabilities due to understand their effectiveness and potential edge-cases. The engagement was concluded with a close-down meeting and a report was issued to Atlassian.

elttam is an independent security company providing research-driven security assessment services to the Fortune 500, global financial institutions, leading technology companies, Australian Federal Government, and up and coming technology start-ups. We combine pragmatism and deep technical insight to help our customers secure their most important assets.

Sincerely,

Nina Rodgers
Operations Manager
